

CALL FOR VOLUNTEERS

In recognition of National Engineers Week 2010, SWE San Diego is sponsoring an outreach event at an elementary school in City Heights. Volunteers will lead 5th graders through hands-on life and physical science experiments. These experiments have already been designed; volunteers only need to learn and teach them! The event will require 1 1/2 hours of your time during business hours on Friday, February 20, 2010. Volunteer for one session or all morning: sessions are 8:45-10:15a, 10:15-11:45a.

Rosa Parks Elementary School
4510 Landis St
San Diego, CA 92105

**If you are interested in volunteering,
please contact Jodi by Friday, February 12.**
