

CALL FOR VOLUNTEERS

In recognition of National Engineers Week 2012, SWE San Diego is sponsoring an outreach event at an elementary school in City Heights. Volunteers will lead 5th graders through hands-on physical science experiments. These experiments have already been designed; volunteers only need to learn and teach them! The event will require 1 1/2 hours of your time during business hours on Tuesday, February 21, 2012. Volunteer for one session or more sessions. Sessions are 9-10:25a, or 10:45a-12p.

Rosa Parks Elementary School
4510 Landis St
San Diego, CA 92105

**If you are interested in volunteering,
please contact Jodi by Wednesday, February 15.**
